Week 3 Prog 2

Fix this program, so that this program prints out the numbers 1 to 10.

What does it do as currently written ?

```
#include <iostream>

using namespace std;

int main() {

    for( int i = 1; i > 0; i ++ ) {

        cout << "i = " << i << endl;

    }

    system("pause");

    return 0;

}
```

Use filename week3YourNameProg2Fix

```
//
// main.cpp
// Week 3 Prog 2
//
// Created by Pippo Pesic on 9/4/22.
//

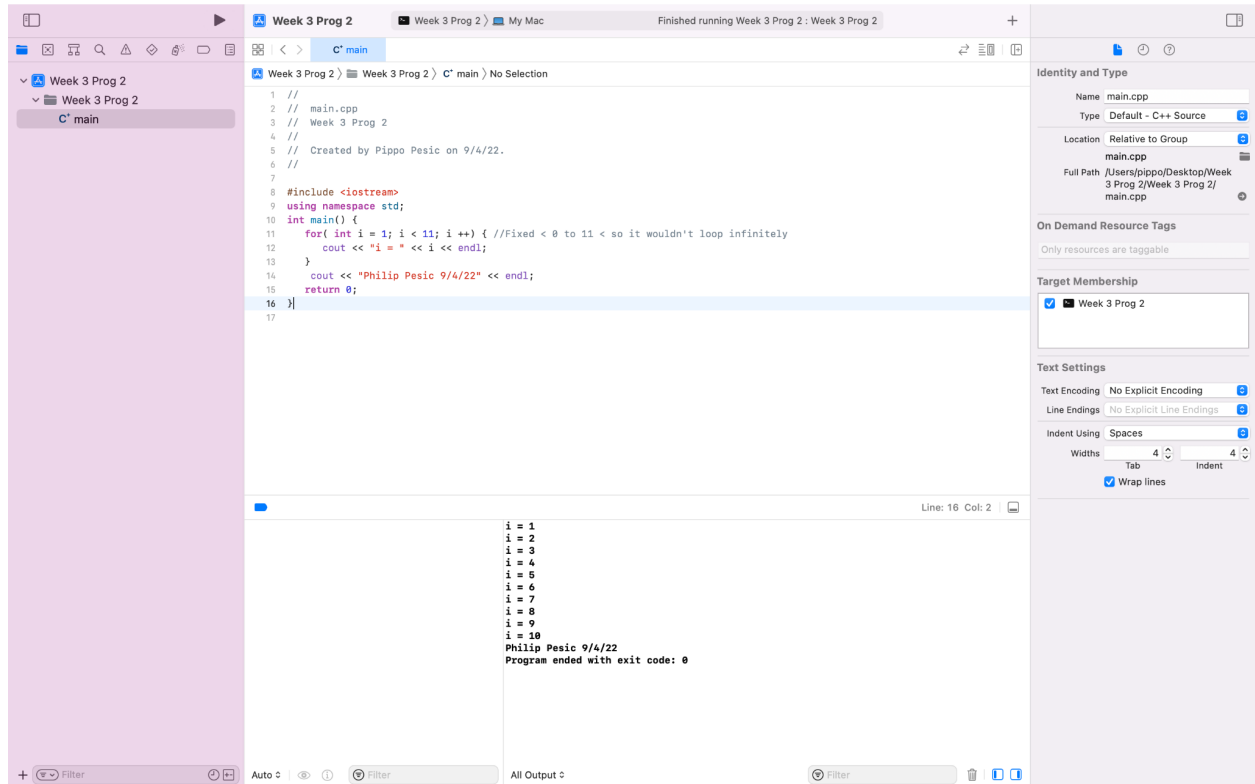

#include <iostream>
using namespace std;
int main() {
    for( int i = 1; i < 11; i ++ ) { //Fixed < 0 to 11 < so it wouldn't loop infinitely
        cout << "i = " << i << endl;
    }
    cout << "Philip Pesic 9/4/22" << endl;
    return 0;
}
```
