Week 4
September 11 2022
Week 4 Prog 1

Watch the following video:

Buckys C++ Programming Tutorials - 12 - Introduction to Classes and Objects (Links to an external site.)

Write the program in the video, run the code, get correct results and turn in for credit

Turn in version of code at end of video..

```
// main.cpp
// Week 4 Prog 1
//
// Created by Pippo Pesic on 9/11/22.
//
#include <iostream>
using namespace std;

class philipsClass {
public:
    void text() {
        cout << "Hello World" << endl;
        }
};

int main() {
        philipsClass philipsObject;
        philipsClass philipsObject;
        philipsObject.text();
        cout << "Philip Pesic 9/11/22" << endl;
        return 0;
```
